PROJECTS

Real time Chat Application

React, TailwindCSS,JS,mongoDB

- In this project i created real time chat application like WhatsApp/viber or imo.
- User can send text messages ,photos and audios and receiver can retrieve data from sender.
- Use socket.IO to add real time rendering to render new messages without refreshing the application.

MacOS portfolio

React, TailwindCSS,JS,GSAP

- This is my portfolio to show my skills.
- UI created like similar to Apple macOS interface.
- I get GSAP support for makes smooth animations for my project.
- Additionally added Zustand+immer to state management.
